

# REACH Certificate

## **Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)**

The above-mentioned regulation deals, among other things, with the duty of suppliers of products to provide commercial consumers and end consumers with information. Should a product contain a substance of very high concern (SVHC), which is listed in the candidate list of the European Chemicals Agency (ECHA), in a concentration of more than 0.1 wt.-%, sufficient information shall be provided to allow safe use of the product – the minimum requirement is, however, to name the substance. The candidate list, which is expanded at regular intervals, can be viewed on the ECHA homepage (<https://echa.europa.eu/en/candidate-list-table>).

In compliance with article 33 of the REACH regulation, our suppliers are obliged to inform us immediately should a product contain a substance on the candidate list in a concentration of more than 0.1 wt.-%. Furthermore, we have submitted a written request to the relevant suppliers to meet this obligation and accordingly to confirm that the products supplied do not contain such substances in an amount exceeding the limit values.

Based on our current state of knowledge and the statements of our suppliers, our products contain no substances from the current candidate list (State: 15 January 2019) in concentrations greater than 0.1 wt.-% - except for the articles or product series listed in the table below.

Should you have specific questions concerning SVHCs in certain products, please contact the following e-mail address stating the relevant part number: [environmental.department@dehn.de](mailto:environmental.department@dehn.de)

Kind Regards

DEHN SE + Co KG

# SVHC Product List

According to the information provided by our suppliers, the following products contain a substance of very high concern in a concentration of more than 0.1 wt.-%.

Note: SVHC substances no longer exist as such, if they become part of so-called UVCB substances in glass or ceramic components. Therefore, they are not subject to notification requirement. Among others, the following substances can be affected: Lead oxides, lead titanium trioxide, lead titanium zirconium oxide or diboron trioxide

Product	Substance	CAS No.
DEHNpipe	Dechlorane Plus	13560-89-9
DEHNcap	Imidazolidine-2-thione	96-45-7
BLITZDUCTOR XT	Lead Cadmium	7439-92-1 7440-43-9
Test adapter for BLITZDUCTOR	Lead Cadmium	7439-92-1 7440-43-9
Shear connector cartridges	Dicyclohexyl phthalate (DCHP)	84-61-7
Telescopic rod	Hexahydromethylphthalic anhydride Cyclohexane-1,2-dicarboxylic anhydride	25550-51-0 85-42-7
Batteries for impulse meter and voltage detector	1, 2-dimethoxyethane (EGDME)	110-71-4
Test prods and voltage detector	Dodecamethylcyclotetrasiloxane Decamethylcyclopentasiloxane Octamethylcyclotetrasiloxane Lead Monoxide	540-97-6 541-02-6 556-67-2 1317-36-8
Hot-dip galvanized components	Lead	7439-92-1
all RoHS-compliant products, which claim an exception in accordance with Annex III of the Directive	Lead Cadmium	7439-92-1 7440-43-9
